

SCUBA PLUS

— **SINCE 1992** —

SCUBA PLUS is Cairo's first PADI 5 stars Dive Center, as well as today SDI/**TDI** (Scuba Diving International) facility 5 stars, always putting safety and quality of diver education at the forefront of our priorities.

SCUBA PLUS was established back in 1992, it came about when founder Karim Helal discovered his passion for the blue in 1991, when upon completing his initial diving courses went searching for diving equipment in Cairo.

By the time SCUBA PLUS moved into its spacious two levels showroom/school at the newly opened Cairo World Trade Center in 1993, it boasted a whole array of brands making their way for the first time in Egypt.

SCUBA PLUS can claim to have truly introduced the love of this beautiful sport on to the Cairo scene , specially with its very popular courses amongst the student body of the AUC American University of Cairo from 2003 to 2014, which led to having an ever growing following who truly became one family, congregating daily at the diving center.

The first generation of Cairo diving pioneers and some of today's industry leaders came out of the Scuba Plus family, Scuba plus continues to this day , as it always was a family...

SCUBA DIVING INTERNATIONAL

Launched in 1998 or 1999, is the sister organization of Technical Diving International. SDI was created by dive professionals from the technical diving field. This gives the organization the perspective of teaching recreational diving through the lens of experienced technical diving.

SDI's philosophy is to improve recreational scuba diving training, enhancing older diving practices by incorporating new diving technology and emphasizing safety. The curriculum is set up to take divers from the beginner level to instructor level and structures its courses around a logged dive and specialty course approach. Divers who progress through SDI's recreational diving courses are then in a position to advance to technical diving with the courses offered by Technical Diving International.

PROFESSIONAL ASSOCIATION OF DIVING INSTRUCTORS

Is the world's largest recreational diving membership and diver training organization founded in 1966 by John Cronin and Ralph Erickson. Cronin was originally a NAUI instructor who decided to form his own organization with Erickson, and to break diver training down into different courses instead of the single universal course then prevalent.

PADI courses range from entry levels (such as “Scuba Diver” and “Open Water Diver”) to “Master Scuba Diver” and a range of instructor certifications. Under their PADI TecRec brand, PADI also offers various technical diving courses, including decompression diving, trimix diving, and gas blending.

Similarly, PADI's sister company **Emergency First Response Corp** provides a range of first aid & CPR programs.

WHY BEING A SCUBA DIVER IS THE BEST THING EVER

You explore the world

If you're a scuba diver, the world is pretty much your oyster. If Earth is 71 percent water, just imagine how many places you can explore by taking a dive.

Diving will provide real-life skills

As you learn more and more about what it actually is to be a scuba diver, you'll also learn from your training and diving certificates a lot of safety measures, how to navigate through potential catastrophes and dangers, how you help people in distress... etc.

You'll encounter creatures unlike any other you've seen

The ocean is a magical place! As soon as you submerge, your eyes will access a whole new dimension filled with marine life and biodiversity overall! Bright coral reefs.

You'll make a lot of friends

Diving is very social! You'll meet a lot of new people in your adventures from all over the world with many different cultures and you will always have something to talk about with these new friends.

You'll develop some true love for the environment

Every time you dip under the ocean's surface, you'll learn something new! Being a scuba diver will constantly enrich your knowledge of the world that's underwater and eventually, it'll start changing your perception towards marine life and their behavior.

You'll easily find peace

In a world as amazing and peaceful as the ocean, you will find true serenity. There aren't any phone calls or annoying whatsapp messages, no city sounds or sirens!

OUR SERVICES

TRAINING

Advanced divers only, 40 log dives, Duration 1 week, Min number of pax-12

Include : Tanks – Weights – Full board – Guide

- **CODE RED SEA IS AN ENVIRONMENTAL INITIATIVE
POWERED BY SCUBA PLUS DIVING CENTER**

The aim is to clean up the red sea and spread awareness, protect marine life and return beauty to the bottom of the red sea.

The story started while Scuba plus team was performing a dive and our eyes were hurt because of what we saw, a huge amount of rubbish underwater slowly covering the corals and disappearing the marine life, at the day we thought of the cleanup, spoken to Diventure magazine team as well about the idea and they agree then we started together the planning, Pro Master diving center hosted the first event with excellent organization and support, HEBCA liked and supported the event with a promise to keep supporting the initiative, other sponsors also participated in the first event to support us.

Divers were all volunteers, Egyptians, and expatriate divers joined the imitative, and some divers canceled their diving trip just to join the event, for the sake of Red Sea Love.

The media team (director, Camera, and interviewer) looked after the visibility of our initiative, and a job well done.

We wanted it to be an environmental initiative not an event because this is our start not just a one-time event.

PADI OPEN WATER DIVER COURSE SDI OPEN WATER SCUBA DIVER

This course teaches the fundamentals of scuba diving, including dive equipment and techniques. The minimum age is 10 years.

Virtually anyone who is in good health, reasonably fit, and comfortable in the water can participate. We offer a 5-day course, which is comprised of one/two days of pool and theory training, followed by 2 days trip to the reef.

Upon completion, the PADI/SDI Open Water Diver certification that is recognized worldwide will be awarded.

(10 – 14 years old will receive the PADI/SDI Junior Open Water Diver certification)

This rating is earned by completing five pool dives and knowledge development sessions, demonstrating the ability to swim 200 meters, and making four open water (in the Red Sea) dives.

SUGGESTED SCHEDULE:

- Three days of theory and pool training to be completed at the Scuba Plus classroom and pool.
- Two days trip to the reefs of the Hurghada, Soma bay, or Dahab where 4 dives will be completed.
- Course commence dates per week are to be decided.

INCLUSIONS:

- 4 dives on the reef, use of all diving equipment & complimentary Log Book.

PADI ADVANCED OPEN WATER DIVER COURSE SDI ADVANCED ADVENTURE DIVER:

This program fine-tunes your dive skills and allows the exploration of some top diving adventures. It includes a total of 5 adventure dives from the following list (must include deep and underwater navigation dives): Boat, Night, Search and Recovery, Drift, Multilevel, computer diver, Peak Performance Buoyancy, Underwater Naturalist, and Wreck.

For divers 15 years or older, and a PADI/SDI Open Water Diver or equivalent.

Or, if the diver is a PADI/SDI Junior Open Water Diver or equivalent and between the ages of 12 –14, there is the PADI/SDI Junior Advanced Open Water Diver program.

After successfully completing the course, the diver will receive the PADI Advanced Open Water Certification or SDI ADVANCED ADVENTURE DIVER.

This allows them to participate in more advanced diving activities.

SUGGESTED ITINERARY:

Diving on the reefs of the Hurghada area, 2 days trip to the reef, 5 dives (one night dive by boat optional or another day on the boat).

EXCLUSIONS:

Equipment hires
